Pakistan-Punjab

» Technical Skills

● Web-Development

Enough knowledge to develop complete responsive website from scratch using basic Html and Css.
Enough knowledge of DOM to make basic interactions for the user-interfaces along with responsiveness.

● Web-Design

Familiar with Figma, and capable enough to edit, copy and make similar webpages using the software.
Convert Figma designs into code, using the basic language modal.

● Illustrations

Extensive knowledge of Illustrator to develop my own animations, icons, designs, and templates.
Also able to edit and manipulate already made designs and illustrations according to the user requirements.

» EXPERIENCE

● Personal Website <https://itsanwarraza.github.io/AnwarRaza/> 2023

Developed my own personal website (portfolio web) using the html, css and javascript that is highly responsive and highly interactive.
Compatible with all devices and is live on internet.

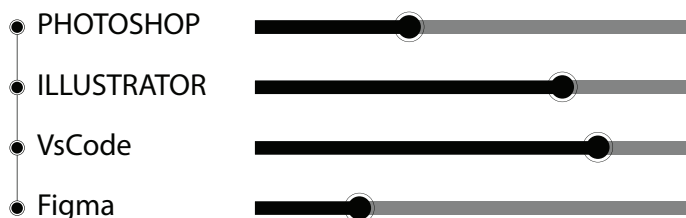

● Itech Software Company Gujranwala 2023

Had been their intern and learned marketing of products and designs and sales on facebook.

● Zahid (Fiver Freelancer) +92-346-0670014 2022

Worked on Shopify project with him for month.
Performed listing of products, designing the product images.
Also designed the shopify page and its interface using Shopify.
